

Dear USCIS Officer,

Sub: EXPEDITE REQUEST

My mother (age: 62) needs a hip replacement surgery urgently.
My father (age: 72) is the only person available to help her with daily activities.

I must be present to help my mother through the surgery and recovery. Traveling on H-1B must have a valid Visa to re-enter the USA. Due to the long estimated wait times around Visa stamping timeline in the local USCIS centers in India, this is infeasible.

Our parents have stayed strong through their critical health conditions. They have lost their siblings and close family members (three members) in the last year alone.

Attached are supplemental documentation:

- A certified letter from the renowned Indian surgeon, Dr. Narayan Hulse
- The latest X-ray copies showing the condition.

Recently, my request to expedite was denied I am humbly requesting you to reconsider my case and allow me to help my mother. I understand that you may be flooded with requests but I request you to please look into this favorably at your earliest.

I-765 Application Number: LIN2190228677

Filing Date: Nov-06-2020

Receipt Date: Feb-16-2021

Sincerely,
Manoj Rao
